0 of 0 review helpful Whoa Dreamweaver By LadyOberon This was a fantastic book that was finished way too soon in

my opinion I can t say enough about this book so I m going to keep this review minimal I have a fascination with lucid dreaming sleep studies parallel realities ghosts haunted houses and most things paranormal or otherworldly If you enjoyed the psychology and fear aspect of the movie The Haunting base Finally available in America the debut novel from the author of The Tooth Fairy and Dark Sister It began as an experiment in college a seemingly harmless investigation into lucid dreaming the ability to control one s dreams But they stayed too long on Dreamside and now ten years later the dreams have returned returned to upend their adult lives The dreams of youth fade if you re lucky If not they can consume you and w Graham Joyce writes the kind of novels we keep hoping to find but rarely do Jonathan Carroll
